BS chemistry

Subject : for the seek of Kamran Education Foundation scholarship

Respected Sir,

I am writing to submit my application for scholarship of Kamran education foundation .Presently I am a BS chemistry student of 6 samester at Khwaja fareed university of engineering and information technology, I also attached a copy of my university transcript for your approval .I am also attaching a copy of school and college grades to verify my diligence in my studies.

I am currently dealing with some financial difficulties and I am unable to pay my fee . I belong to a poor family and I have 5 siblings and my father is a driver and its difficult for my parents to pay my fee in this era of inflation.

I am requesting to KEF members to provide me this scholarship so that I can complete my degree at kfueit , and can get a job in a Pakistan nuclear labs and serve my country and country people .

Rubina Malik

BS chemistry

The Kamran Education Foundation,

277 Westridge Ave, Daly City, CA 94015, USA

Respected Sir,

I am a bright and deserving student. The sole breadwinner for our family is my father and it is difficult to meet both ends with only one earning hence I believe I deserve this scholarship. This scholarship will bring ease to my studies as at this time it's difficult for me to continue my studies in this situation. I'm in the last year of my BS & I don't want to ruin my studies like this. I applied for this scholarship as it is the only ray of hope for me in this difficult time.

I shall be very thankful to you if you grant me this scholarship. Looking forward to a positive response from your side.

Regards

Subject: Request to Approve my (KEF) Scholarship

Respected Sir,

I am writing this letter to apply for the scholarship for further studies in MS degree. With due respect, I am a student of MS physics (2nd Semester) having registration number: PHYS-211501005 at KFUEIT, RYK. Recently, I passed my first semester with SGPA 4.0.

As you will become familiar with my educational record which ensures you that I am a hardworking student having remarkable grades and want to continue my studies. But, my father is unable to bear my education expenses. His occupation is selling clothes by sitting outside a shop. His income is fluctuating according to the market conditions. He suffered from Covid-19 three months ago. After that, due to some minor accident, his knee muscles ruptured and he can't walk without any support. He is the only person who bears our family expenses. He is now grown older and unable to do such a hard job further years ahead.

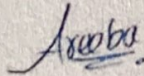

My degree is research-based and my goal is to work to have an impact on many environmental issues such as solar power, wind power as well as waste management. If I am fortunate enough to receive this scholarship, I will finish my degree and qualify for a job that promotes research sustainability in these fields.

As per the applicable terms and conditions, I have enclosed all the required certificates and documents as well as the recommendation letters. If you need anything else, please let me know about this.

Thank you for your time and hoping for a positive reply.

Sincerely,

Areeba Siddique
